C;Comment: This enzyme, a hydrolytic enzyme, which belongs to monocotyledonous endo-beta
glucans, synergistically acts with chitinase to inhibit fungal growth in vitro. It is al
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      A;Molecule type: mRNA

hypothetical protein ZK632.4 - Caenorhabditis elegans
C; Species: Caenorhabditis elegans
C; Deccies: Caenorhabditis elegans
C; Date: 05-Dec-1998 #sequence_revision 05-Dec-1998 #te
C; Accession: S40936
R; Berks, M.
submitted to the EMBL Data Library, February 1993
A; Reference number: S40933
A; Accession: S40936
A; Status: preliminary
A; Molecule type: DNA
A; Residues: 1-411 < BER>
A; Cross-references: UNIPROT: P34650; UNIPARC: UPI000012E

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         Sequence:
          Pred. No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            Score
